

Week 27.10 - 31.10

coding:

- overplot Liuge and poincaré non-pert on python (JF and SF-)
- overplot MANTIS tomographic reconstruction and poincaré perturbed on python (JF)
- overplotting manifold/ MANTIS for different angles to find camera location (JF)
- add a manifold.save and a manifold.load functions

Jellyfish (77021, 1.05 s)

Snowflake minus (70460, 0.9 s)

to do:

- understand and rewrite C.Heiss script for computing error field
- compare the error field computation “Stray shot” vs “backoff shot”
- meet with A.Perek to find good MANTIS shots and a SF- one
